---

Thanks for checking. The Coverdell 2010 grant (current year ) will be extended to march 2010. If there is another session and those dates work for the chemists we can still do it. The only problem, is that I will need to know by early next week in order to make the necessary changes to the ISA budget.

This very well could be our last opportunity to send people as there is a reduction in next year's Coverdell award which will only cover Hevis's salary.

Julie

**Subject:** RE:DEA school

I asked Nicole and Dan about their availability for DEA school in September and neither one can attend that class. Daniela will be back Monday, and I know she would be interested in attending. Hevis will have 5 months of bench work under her belt, but the DEA requests that chemists attending the class have at least one year of bench work. CBS

Hi Julie,

We don't have a form for Technical Review. I have attached our procedure. Also, I have attached the cover sheet of the report which includes Administrative Review Checklist (Since this is mandated for 100% of cases, we put it on the cover.) Though not required, we do 100% Technical Review and 10% Comprehensive Review on top of this. Comprehensive Review also includes checking the Evidence and Chain of Custody.

We are just finalized on our Policies and Procedure updates and I will send a disc with them on it if you are still interested.

Stay cool!

Ellen

Hi Ellen,  
We are working on a technical review sheet for the Drug Lab. It is turning out to be quite long. Do you have an example of one you could email, so that we can see if we are on the right track.  
Thanks, Julie
